FLAVOR FIRST™

FLAVOR FIRST™

Wine glasses designed for what matters most—FLAVOR

"We've methodically and aesthetically designed a better and simpler way to drink wine," Karen MacNeil explains. "We designed our glasses around the one thing that matters most... FLAVOR. The result: beautiful wine glasses that perfectly enhance taste and are wonderfully comfortable to hold." Author of the best-selling wine book "The Wine Bible," praised as "A masterpiece of wine writing."

SOPHISTICATED & DURABLE

Putting the craft in craft cocktail, Alistair's three tiers facet together to form a silo that epitomizes high-class glass. Sophisticated, refined, and multi-purpose, the look is classically inspired while the make is top contemporary quality. Sleek enough for upscale bars but durable enough for demanding restaurants, Alistair is available in 16 oz taller Tea Glasses, 12 oz D.O.F Glasses, as well as an additional 4 pack option for any foodservice distributor cash & carry opportunity.

REALITY™

The Reality pattern is the perfect blend of fashion, sophistication, elegance and durability. The nicely proportioned stylish design brings an upscale look to the handsome piece, and helps eliminate the rim-to-rim contact. The substantial base delivers a cut crystal look typical of high-end glassware and adds stability to the table. Rim-tempered for added durability, the controlled bead gives an elegant upscale look to the finely crafted piece. The Reality tumbler makes a great addition to any table setting.

SIMPLE ELEGANCE

New for 2022, Savore's clean lines and straight sides epitomize why sleek minimalist design means multi-purpose. Elegant but understated, relaxed but refined, Savore can be used as just about anything. Stemless wine glasses, beer glasses, snack dishes, dessert bowls -- you name it. Rim-tempered for added durability, unlock the potential of versatility with Savore.

SOLACE™

Designed especially for the growing healthcare food market, Solace is a simple, practical and stylish solution to dressing up a table. The heavy base helps reduce tipping and the rim is designed to accept standard plastic lids to prevent spilling while transporting drinks from the kitchen to the table.

BEER

 ANCHOR
HOCKING®

Tasters and shot glasses from Anchor Hocking offer an excellent opportunity for any establishment to pre-sell or up-sell their beverage service by providing truly unique presentations that can be tailored to any décor.

SCORE BIGGER PROFITS

Use serving paddles to increase your sales and profits. Serve customers four different beers (for your 13 oz. price) using 4.5 oz. taster.

OUR PROMISE TO YOU

Longer Life, Lower Replacement Costs

Anchor Hocking Foodservice products are made stronger, more durable by special manufacturing processes:

Rim-Tempered products (sometimes referred to as heat treated) are similar to fully-tempered, except that the heat is concentrated on the rim area, followed by the cooling process, allowing for a stronger more durable product.

SUREGUARD™ GUARANTEE

Most Extensive Guarantee in the Industry

Anchor Hocking Foodservice guarantees its entire line against chipping. If the rim of a tumbler or the foot or rim of a piece of stemware chips in normal use, Anchor Hocking Foodservice will replace the item or refund the purchase price when returned to the dealer or distributor from whom it was purchased. Products in the Foodservice line are defined as all active products in the Foodservice price list. Naturally, this guarantee does not cover breakage.

CARE & HANDLING

Mechanical Shock: When glassware comes in sudden contact with any hard surface or object, whether it's another glass, the countertop, or a beer tap, small abrasions are created which weaken the surface and increase the chance of breakage and chipping.

Never stack glasses. Avoid glass to glass contact in all instances

Do not use glassware for storage of flatware.

Separate glassware, flatware and china in bus trays.

Never pick up glasses in bouquets.

Never pour cold liquid into a hot glass, such as one just out of the dishwasher, or hot liquid into a cold glass.

Never scoop ice with a glass. Use a plastic scoop.

Empty ice from glass before sorting bus tray, this allows more time for the glass to reach room temperature before washing.

Keep an adequate backup supply of glasses. A recently washed glass should be allowed to reach room temperature before being placed back in service.

Utilize the correct rack system for tumblers and stems. A divided rack is always recommended.

Thermal Shock: The result of a rapid temperature change in the glassware which can create stress and/or cracking.

TOOLS OF THE TRADE

SERVICE SETTING

An adequate inventory of glassware in a Foodservice operation or bar will help decrease breakage, because if supplies are short, workers must handle glasses faster and less carefully. These charts offer not hard-and-fast rules, but only suggested requirements.

GLASSWARE REQUIREMENTS

SAMPLE BAR GLASSWARE REQUIREMENTS

(per 100 seats)
