

Nitrile Rubber Gloves

Product Usage

Nitrile gloves are great alternatives when latex allergies are a concern. Nitrile is a stronger and more durable material for tougher applications, thus making them a better option for medical use. Nitrile is resistant to many solvents and chemicals. Excellent for applications where safety is a concern or for nasty clean-ups.

#1317, #1318, #1319 Heavy-Duty Reusable Nitrile Gloves

- 1 pair of gloves per unit pack
- Provides excellent protection against chemicals like strong detergents, greases, oils, and most solvents and acids
- Textured for increased grip in wet and dry conditions
