MANUFACTURING COMPANY

DURABILITY THAT MAKES A DIFFERENCE®

# Half Size Labels - Half Size Price

The new half size label makes it easy to switch from tape or non-dissolving labels to StoreSafe® 100% dissolvable and biodegradable Food Rotation Labels. They leave no sticky residue, eliminate scraping and save time and money. Both the adhesive and the label dissolve completely off any container in less than 30 seconds under running water or when run through any dishwasher. Use Food Rotation Labels to ensure a First In, First Out (FIFO) food storage and handling system following HACCP guidelines.

Masking tape and non-dissolving labels leave behind sticky residue that can harbor harmful bacteria and increase the risk of cross-contamination.

- Use in the cooler, freezer or dry storage.
- Switch from seven color labels to one universal label for all days of the week.
- Microwave safe.
- Use pen, pencil or marker to write on label.
- Safe for all sewer and septic systems.

No more scraping.

For more information about Cambro products, contact your Distributor, Cambro Sales Representative or the Cambro Customer Service Department.

### GripLid®

Lid grips the side of the food pan, reducing spills. The self-enclosed container reduces points of cross-contamination. Eliminates the need for wrapping pans in plastic wrap. Saves labor and reduces costly supplies.

### Camwear® Round Storage Containers

Safely store and transport ingredients or prepared foods. Virtually unbreakable polycarbonate is durable and stain resistant. Contents are always visible to reduce handling.

### Camwear® Camsquares®

Maximize storage space. Clear polycarbonate is virtually unbreakable and contents are clearly visible without removing lids. Lids match graduation colors to ensure the right fit in a snap.
