

CAMWEAR® FOOD PANS

Store, transport and serve all in one pan. Camwear food pans are made from durable Camwear that will not crack, bend or dent. Precisely designed to Gastronorm GN specifications, with a large radius bottom to reduce food waste. At half the cost of stainless steel, Camwear pans keep contents as cold as metal pans with less condensation. Pans stack neatly without wedging or sticking.

Colors: Clear (135), White (148), Black (110). Except 18CW and 28CW available in Clear (135) only.

Camwear pans are not recommended for steam table or microwave use. See H-Pan™ section for high heat applications.

Colander Pan is covered by U.S. Patent D 528,376.

Uniform 1/2" (1,27 cm) flange ensures a smooth fit in prep tables and food bars.

Virtually unbreakable Camwear withstands temperatures from -40° to 210°F (-40° to 99°C).

Molded-in graduations in standard and metric for easy inventory management.

Won't react with food; minimizes potentially hazardous chemical or acidic reaction.

Non-stick smooth interior surface increases yields and promotes easy cleaning.

Textured bottoms resist scratching.

Cold Test

Tests prove Camwear food pans keep products as cold as stainless steel. Stainless may feel colder, but as these test results demonstrate, Camwear food pans keep products just as cold for just as long.

CAMWEAR® FOOD PAN LIDS

Flat Cover

Available in all pan sizes.

Cover with Handle

Deep molded handle provides secure grip and also includes a peg hole for sanitary drying. Available in black to help block light, reducing discoloration of meats and cheeses.

Notched Cover with Handle

Notched cover allows utensils to remain in pan and off of potentially contaminated counters. Includes peg hole for sanitary drying.

Seal Cover

Designed to fit Camwear and translucent food pans, Seal Covers feature an inner seal that provides superior spill resistance and extends shelf life up to 3 days.

FlipLid®

Flip up lid to easily access contents. Food can be held without getting dried out, increasing yields. Reduces points of cross contamination.

Notched FlipLid

FlipLid with notch to rest spoon in contents with lid closed.

GripLid®

Molded-in polyurethane gasket on the lid grips the side of the food pan airtight, reducing spills and points of cross contamination.
