

# AMERICAN RANGE

A **HATCO**<sup>®</sup> COMPANY

## Green Flame Ranges

Are you in the market for a commercial range, but concerned about safety? The Green Flame Range is the perfect solution. With no standing pilots, it creates a safer kitchen environment while also saving on gas. You won't have to compromise on functionality either. Green Flame offers the same sizes and configurations as our traditional ranges. Designed for low-duty cooking facilities, it's the smart, efficient, and safe choice for any kitchen.
