American METALCRAFT, Inc.

2019 Collection

Culinary elevation down to a fine art.

You make great food. We make products that elevate great food.

Wherever crowds need to be pleased, American Metalcraft is there to elevate your culinary creations. Restaurants or grocery stores, hotels or catered events – we see them all as arenas for show-stopping meals.

Over seventy years ago, we broke into the industry by turning hubcaps into deep dish pizza pans and custom plate covers. We've since grown our product line into an expansive, eclectic collection of food presentation solutions. In these pages, you'll discover creative tabletop accessories, innovative kitchen supplies and every other tool you need to craft an incredible dining experience.

Our product names and descriptions aren't rules; they're suggestions. If you want to use storage jars as cocktail glasses, bread baskets as dinnerware or pizza peels as serving trays for sophisticated entrees, we won't be upset. In fact, we'll be honored that you found inspiration in our goods.

It all boils down to this: Great food deserves great presentation. Your business and ours are a match made in culinary heaven.

NEW — New products that have been added to our catalog in 2019.

HOT — Products that are among our top sellers.

Products that are available in retail packaging.

Products that should be hand-washed only.

Products that are economically shipped knocked down. May require assembly.

NSF — Products that have received NSF certification and meet strict standards for public health protection.

USA — Products manufactured in the United States of America.

NAFTA — Products made in a North American Free Trade Association member country.

BPA FREE — Products that do not contain Bisphenol-A.

WARNING: Products that may contain chemicals known to the state of California to cause cancer, birth defects or other reproductive harm. For more information, go to **www.P65Warnings.ca.gov.**

You can use these handy peel stickers to mark the items that you like.
Make sure inspiration sticks around.

Dinnerware

INTRODUCING THE ISABELLA COLLECTION

You don't need to go to the antique store to create a welcoming, tasteful atmosphere with your dinnerware. We're excited to introduce our new Isabella Collection. Inspired by classic china, these timelessly nostalgic pieces feature beautiful floral designs that could pass as individually made. Whether you use them to serve entrées, hors d'oeuvres or desserts, your customers just might be transported to a Florentine patio when this collection reaches the table.

Because the Isabella Collection is crafted from BPA-free, NSF-approved melamine, you can create elegant presentations day after day and night after night without concerns of safety or durability. Crafted with a perfect blend of functionality and grace, this collection is sure to impress even those with the most traditional tastes. Your new favorite dinnerware has arrived.

THE CRAVE COLLECTION

Our Crave Collection of break-resistant melamine dinnerware is back and bigger than ever. In a wide variety of plates, platters, bowls and mugs, this is not your grandma's melamine. Fast forward, rather, to the 21st century, where technological advancements in designs, materials and manufacturing techniques create artisan-quality melamine that captures the look and feel of china–all at a fraction of the cost and two to three times the service life.

NSF-certified and BPA-free, the Crave Collection is safe in terms of durability, design and ability to be thoroughly sanitized. In two colors, Cloud or Shadow, each artisanally designed piece features organic edges to elevate food service everywhere.

DINNERWARE THAT ENDURES DINNER WEAR.

Four different plate sizes, twelve different bowl sizes, four different platter designs and a new BPA-free polycarbonate mug are available in two elegant colors–Cloud and Shadow. Mix and match shapes and colors to bring a whole new look to your table presentations.

THE DEL MAR COLLECTION NEW BPA FREE

Poolside food service presents a unique set of challenges, and the Del Mar Collection is designed to meet all of them. Crafted from lightweight ABS plastic (a BPA-free, dishwasher-safe material), these stackable serving boxes can be used as both delivery trays and dinnerware. With stylish water-inspired details and modular design, they're the ideal way to present light fare indoors and out. Just remember to wait 30 minutes before going back in.

Porcelain Gravy Boats

This classic design comes in three different sizes.

GB3 3 oz. (88.7 mL)
6" L x 1 ¾" W x 3 ½" H
(15.2 x 4.5 x 8.9 cm)
4/32 pk 2.34 cu ft 18 wt **10.60** Ea

GB8 9 oz. (266.2 mL)
8" L x 2 ¾" W x 5" H
(20.3 x 7 x 12.7 cm)
2/16 pk 2.86 cu ft 20 wt **21.20** Ea

GB16 16 oz. (473.2 mL)
9" L x 3 ½" W x 5 ¼" H
(22.9 x 8.9 x 13.3 cm)
2/12 pk 2.63 cu ft 15 wt **30.00** Ea

Porcelain Sauce Server

Creamer by day and gravy boat by night, this modern piece features organic curves and a unique handle-free design.

CM4 4 oz. (118.3 mL)
3 ¾" L x 3" W x 2" H
(9.5 x 7.6 x 5.1 cm)
4/48 pk 2.22 cu ft 19 wt **7.00** Ea

Stainless Steel Gravy Boats

Perfect for gravy or salad dressings.

GB300 3 oz. (88.7 mL)
2 5/8" L x 5 3/4" W x 3" H (6.7 x 14.6 x 7.6 cm)
12/72 p 1.49 cu ft 17 wt **5.20** Ea

GB500 5 oz. (147.9 mL)
3 1/8" L x 7 1/4" W x 3 1/8 H (7.9 x 18.4 x 7.9 cm)
12/48 pk 1.52 cu ft 15 wt **6.80** Ea

GB1000 10 oz. (295.7 mL)
3 3/4" L x 8 3/4" W x 3 1/4" H (9.5 x 22.2 x 8.3 cm)
12/36 pk 2.00 cu ft 17 wt **9.20** Ea

GB1600 16 oz. (473.2 mL)
7 1/2" L x 4 3/4" W x 3 7/8" H (19.1 x 12.1 x 9.8 cm)
6/24 pk 2.08 cu ft 16 wt **14.40** Ea

Stainless Steel Bell Creamers/Syrup Servers

Stainless steel with mirror finish.

CP300 3 oz. (88.7 mL)
2 1/8" L x 3 3/4" W x 2 3/8" H (5.4 x 9.5 x 6 cm)
12/144 pk 1.51 cu ft 19 wt **3.00** Ea

CP500 5 oz. (147.9 mL)
2 1/2" L x 4 1/4" W x 2 7/8" H (6.4 x 10.8 x 7.3 cm)
12/144 pk 2.34 cu ft 27 wt **3.90** Ea

Ceramic Bud Vases

These simple black and white vases are designed to make the flowers inside pop with color.

BVJGB5 Black Jug
2 1/8" W x 3 7/8" H (5.4 x 9.8 cm)

STANDARD STOCKED PLATE COVERS

Need to please a crowd in a pinch? Seven of our most popular plate covers are available for rapid turnaround. Made of durable satin-finished stainless steel, these covers feature top-of-the-line heat retention and odor resistance. A well in the top of each cover fits the foot of many different plates. Just measure the diameter of the plate and note the design of the foot to determine the best option.* All covers are 2" in height and include a finger hole.

For help ordering, call 800-333-9133.

*We cannot guarantee a solid fit or stack. If a precise fit is required, see Custom Plate Covers on pg. 118-120.

PC1093R

STOCKED AND READY TO SHIP

CUSTOM PLATE COVERS

The Perfect Fit, Time After Time

To achieve the perfect fit, a sample plate is required. Plate covers are then custom-fitted over the rim of the plate.

Manufactured from durable stainless steel, Most styles have a finger hole. The standard finish is polished on the sides and satin on the top. All satin or all mirror finishes are also available.

1. **Plate covers are custom-fitted over the rim of the plate with allowance for some normal size variation in commercial china. Covers are approximately 2" (5.1 cm) high over the rim of the plate. Extra high and lower height covers are also available on pg. 119.**

2. **Sample plates are required with all new orders for custom fitting. In most cases, we guarantee our covers will stack with your customer's china.**

3. **To ensure secure stacking, a "crown" is formed in the top of the cover that matches the foot of the plate. This stacking feature offers safe multiple-meal-carrying and cuts down on serving time.**

Ordering Tips

1. Since commercial china will vary in size, it is best to have the china company provide a sample for plate cover sizing. This ensures that we furnish a cover that fits over the rim of the plate properly and also enables us to custom design a "crown" on the top of the cover for solid stacking.
2. Send the sample plate(s) to American Metalcraft with your purchase order for pricing confirmation. Only prices quoted after receipt of sample plate(s) are guaranteed.
3. Some plates and oval platters with wide bases and oblong platters may not fall into the category indicated by their top outside dimensions.
4. Custom-fitted covers are manufactured approximately ⅛" larger than the sample plate provided. This will allow for some normal variation in the size of the china.
5. Most plate cover reorders should reference a previous order or an American Metalcraft invoice number.
6. Custom-fitted covers are non-returnable.

Note: If you have china from more than one manufacturer, or from different lots, make sure you measure five from each and submit the largest and smallest of each.

Washing Instructions

Covers are manufactured using food-safe compounds and will require initial hand-washing with a degreasing detergent. Always thoroughly dry plate covers after washing. Never store them damp.

Round Custom-Fitted Stainless Steel Plate Covers USA

Unitized Thermo-Dri Bases USA

Custom-fitted plate-holding bases for plates from 8 13/16" through 12 3/4" Dia. Double-walled construction of stainless steel with an aluminum pellet incorporated for long-lasting heat retention. Specially designed to stack solidly for safe tiered multiple-meal-carrying. **Minimum order 48 pieces.**

Unitized Thermo-Dri Bases (Built in Pellets, Never Leak)

UB60 For plates 8 13/16" to 9 3/4" Dia. (22.4 to 24.8 cm)

Standard Insulated Thermo-Dri Hot Food Bases

Custom-fitted plate-holding bases with separate pellet for plates between 8 13/16" to 12 3/4". These bases are made from stainless steel and double-wall to provide excellent insulation and heat retention. The separate aluminum pellet fits snugly into a specially designed well inside the base. Since only the pellet is heated, the base remains cool to the touch while food stays hot. **Minimum order 48 pieces.**

MESA™ COLLECTION

Equally elegant and eye-catching, the Mesa Collection is a fabulous way to make your buffet service memorable. Featuring a classic combination of wrought iron and hammered copper or stainless steel, each of these items works independently or as a cohesive collection.

Mesa Stainless Steel Roll-Top Chafers

These 180° roll-top chafers are adorned with beautiful wrought iron trim and convenient built-in spoon holders. A locking mechanism allows the lid to remain open at 90° for stunning presentation. Each chafer comes with a 22-gauge food pan, water pan, fuel holder and spoon.

Black Matte Finish Porcelain Casseroles

The look of cast iron meets the durability and weight of porcelain. Smaller casseroles (20–24 oz.) are perfect for shared sides or warm desserts. Larger casseroles (64–104 oz.) work well at buffets.

PBB9 20 oz. (0.6 L)
7 ¼" L x 4 ¼" W x 2" H

MELAMINE NATURALS COLLECTION

At first glance, these boards look like real stone and wood serving pieces. But upon closer examination, they're actually crafted from durable, dishwasher-safe melamine.

Dual-Tone Marble Melamine Serving Platters NEW

For our next trick, we've created melamine serving boards that are practically indistinguishable from black-and-white marble. A high-end look that's guaranteed to turn heads.

WOOD CRATES AND CADDIES

In eight different sizes and four attractive finishes, our line of wood crates and caddies works hard in any setting. Smaller sizes are a tasteful way to hold condiments, napkins or silverware, while larger crates are sized to fit with polycarbonate and insulated inserts. Best of all, every piece in this line can be flipped over and used as an imaginative riser.

Securit® CHALKMARKER ORIGINAL

Original Chalk Markers HOT

Great signage takes a bit of artistry, but just using a better medium will bring out your most inspired menus and promotions. These chalk markers are resistant to smudging, fading and light rain. Plus, they can be used on any non-porous surfaces and easily cleaned off with our Chalkboard Sponge.

Pizza Pans & Supplies

A GUIDE TO OUR PIZZA PANS

Aluminum Pans

Aluminum pans are available in two weights. Standard-Weight pans are 18-ga., 0.040", 1 mm aluminum, and Heavy-Weight pans are 14-ga., 0.064", 1.5 mm aluminum; Heavy-Weight pans are 50% heavier than Standard-Weight. Standard-Weight pans are usually designated with an "A" as the prefix in the item number and Heavy-Weight pans are usually designated with an "HA" as the prefix in the item number. Hand-washing is recommended as aluminum is a soft metal that is attacked by detergents with a high alkaline or acidic nature. Hand-wash with detergents made specifically for aluminum. Through repeated use, aluminum will soften and, if scoured, will thin.

Tin Plate Pans

Tin Plate Pans should be seasoned before use and may need periodic reseasoning. Tin Plate Pans will darken with use and will rust if refrigerated, soaked in water or left unseasoned in damp environments. Wipe dry immediately after hand-washing. Tin Plate Pans are designated with a "T" as either the prefix or suffix in the item number. Call for additional Tin Plate Pan options.

To Season Tin Plate Pans

To season, wash in warm, soapy water and quickly dry. Brush oil on inside and outside surfaces of the pan and bake to a golden or dark brown. When seasoning, bake at regular times and temperatures. Some pans may need a second or third coating before being fully seasoned.

Hard Coat Pans

Hard Coat Pans are made from Heavy-Weight aluminum. Perf and SuperPerf hard coat disks are made from Standard-Weight aluminum. Hard Coat pans are usually designated with an "HC" as either the prefix or suffix in the item number. Hard Coat anodizing is a synergistic electro-chemical process that converts the surface of aluminum into aluminum oxide. The aluminum oxide is a dark color. This finish is hard and will not flake off. However, the aluminum underneath is soft, and through repeated use the pan will soften. If scoured, the pan will thin. Hard Coat pans are not non-stick and must be seasoned. Hand-wash only with detergents made specifically for aluminum.

To Season Hard Coat Pans

Wash and dry the pan thoroughly. Wipe oil on the inside and outside surfaces of the pan and allow to soak in for 30 minutes. Then bake at regular cooking times and temperatures. Do not over bake and do not wash off excess oil. The oil residue and any additional oil added before baking allows the pan to develop non-stick properties. Remember when cleaning hard anodized aluminum, this is considered an amphoteric coating and will be attacked by solutions of a high alkaline or acidic nature. Do not expose these pans to dishwashers or caustic cleaning solutions. Hand-wash with detergents made specifically for aluminum.

Please note:

In our catalog are thousands of different pizza trays and tens of thousands of different combinations of styles, depths, materials and options. **These pans are made to order; they are not stocked.** It is possible that your special-order pan has never been made previously or has only been made once or twice. **Consequently, special-order pans, once ordered, cannot be cancelled or returned.** Please review and re-confirm the pan you are ordering. If you have any questions, please call and, if necessary, request a sample. **Orders for special-order pans cannot be cancelled. Special order pans are not returnable.**

Nibs

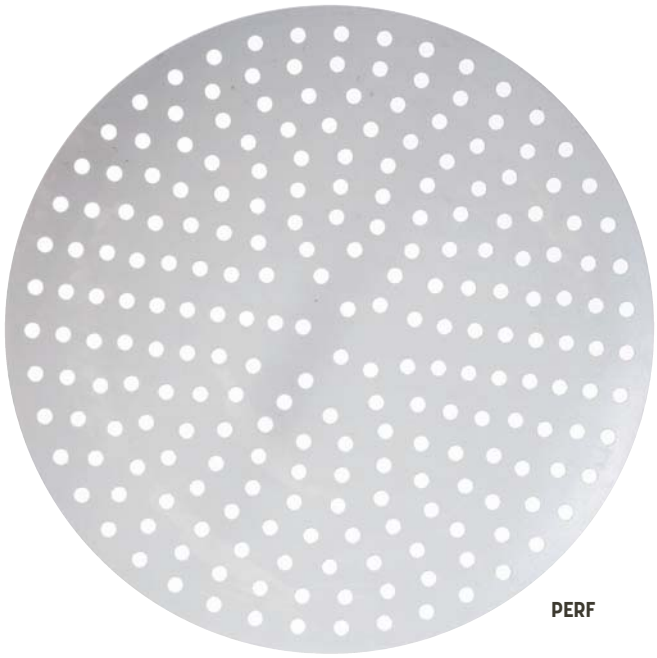

Any round or square pizza tray or pan we manufacture, 2" (5.1 cm) deep or less, or between 8" (20.3 cm) and 20" (50.8 cm), can be furnished with Nibs. To order, use the regular item number and add the prefix "N." Also, note in the body of the order that the pans should be made with Nibs. The Nibs are approximately ⅝" (15.9 mm) in diameter and raise the pizza about ⅛" (3.2 mm) above the surface of the pan. Raising the pizza off the surface allows moisture to escape, and a fresher, crispier pizza may result. Pans with Nibs cannot be Perf or SuperPerf. Refer to the tray or pan style for more information and for pricing information. **Minimum order 24 pieces.**

NIBS

Perf

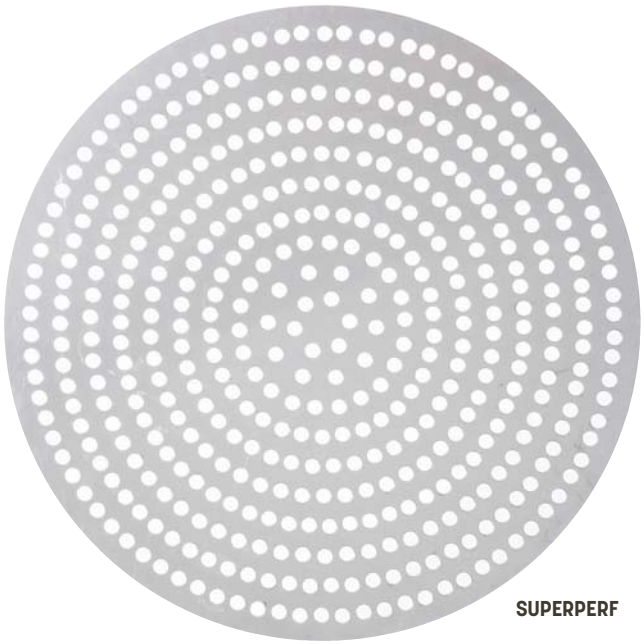

Any round or square pizza tray or pan less than 21" (53.3 cm) in diameter can be perforated. To order, use the regular item number and add the suffix or prefix "P." Also, note in the body of the order that the pans should be perforated. These pans cannot be made with Nibs. Perf pans allow the bottom of the pizza to cook faster and can provide a crispier crust. Perf pans can also be used to keep cooked pizzas fresher by allowing moisture to escape. Refer to the tray or pan style for more information and for pricing information. All holes are ⅜" (9.5 mm) in diameter. **Minimum order 24 pieces.**

PERF

SuperPerf

Any round pan less than 21" (53.3 cm) in diameter can be SuperPerf. To order, use the regular item number and add the suffix "SP." Also, note in the body of the order that the trays or pans should be SuperPerf. These pans cannot be made with Nibs. SuperPerf pans have twice as many holes as Perf pans of the same diameter. SuperPerf allows the bottom of the pizza to cook faster and can provide a crispier crust. SuperPerf can be used to keep cooked pizzas fresher by allowing moisture to escape. All holes are ⅜" (9.5 mm) in diameter. Refer to the tray or pan style for more information and for pricing information. **Minimum order 24 pieces.**

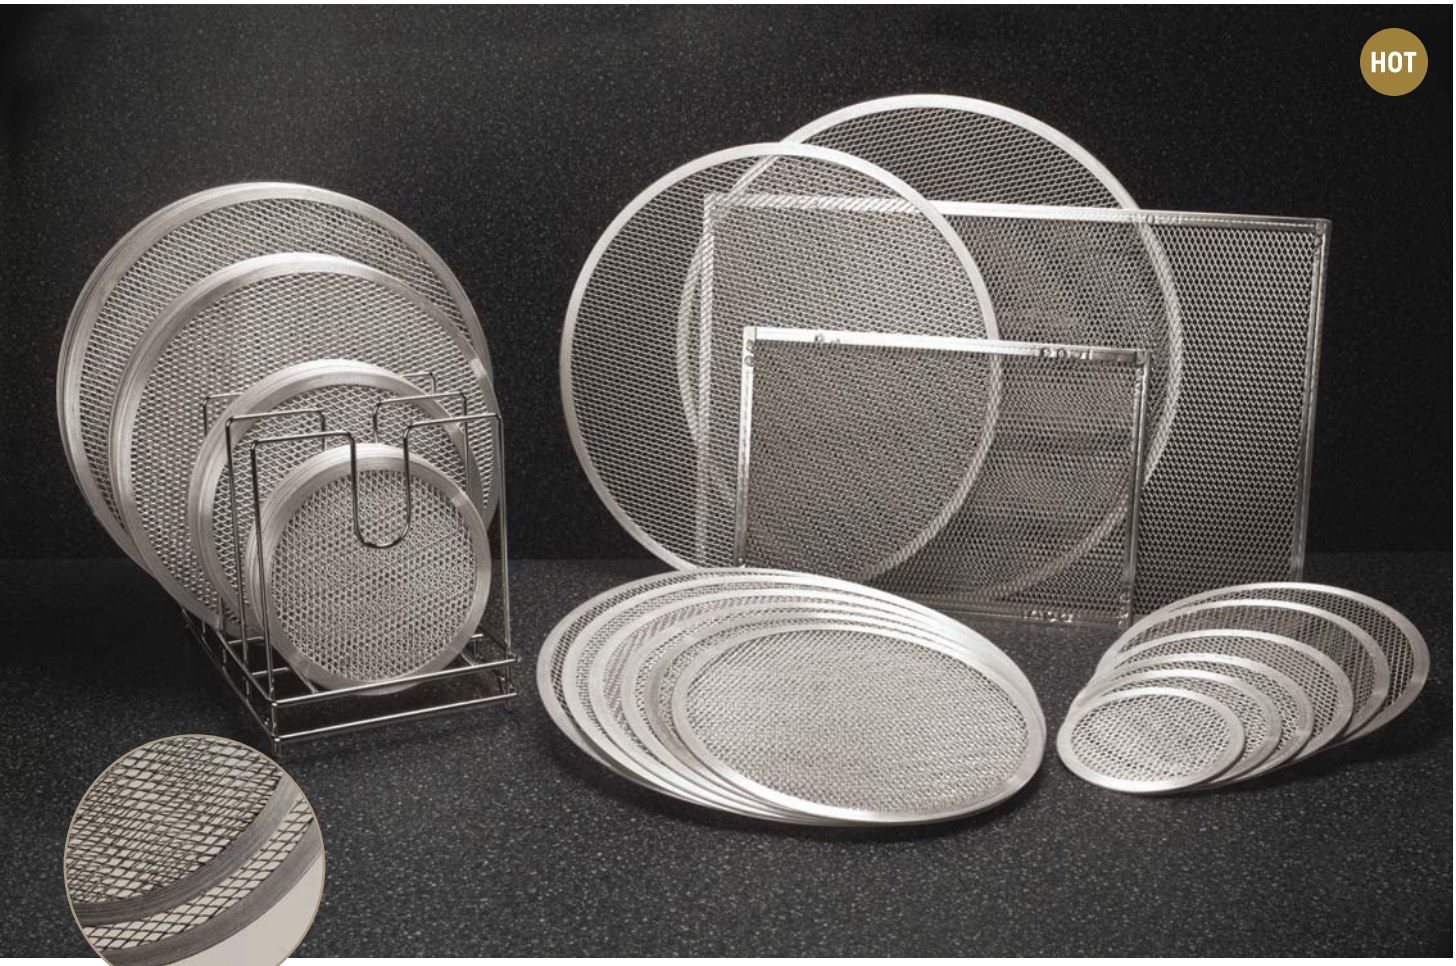

SUPERPERF

Perf and SuperPerf Hole Guide

For pans with a maximum bottom-inside diameter:		Number of Holes Standard Perf	Number of Holes SuperPerf
5"	(12.7 cm)	10	20

Mega Screens - Aluminum

Mega Screens are the smart choice for those looking for a more durable screen option. Holes and open rims make cleaning a breeze and improve food safety. Available in aluminum or hard coat anodized aluminum, Mega Screens can last 5 to 10 times longer than standard pizza screens. Hard Coat Mega Screens are the most durable, cost-effective screens for conveyor oven use. Holes are 3⁄32" (0.24 cm) diameter.

CAR HC PANS
Hard coat anodized 14-ga., 1.5mm aluminum

SHARP EDGE ALSO CUTS DOUGH

CAR Pans - Tapered/Nesting

The edges of these pans are left unfinished so that they're sharp enough to cut dough. Just place a sheet of dough over the pan and use a rolling pin or pie roller to cut it down to size.

TP Series Wide-Rim Pans

There's a reason that the pizza industry has trusted American Metalcraft since 1947. Often imitated, but never duplicated, our signature TP Series of serving trays offers unbeatable reliability and durability, thanks to heavy-duty 14 and 18-ga. aluminum construction.

Caring for Wood Peels

Want to keep your wood peel looking fresh? Always wipe it clean with a damp cloth. Never put in dishwasher, soak in water, place under a heat lamp or leave on a hot surface. If your peel warps, leave it with the warp facing up overnight and it should flatten out.

Pizza Peel Wood Oil

Block odors, food particles and moisture by seasoning your wood peels. Unlike some oils, this won't spoil. Note: Seasoning will not keep peels from wearing out.

WDOIL 8 oz. (236.6 mL)

Pairing Suggestions for Creative Presentations

Throughout the catalog, we pair various bowls, trays, platters and baskets in wood, bamboo, ceramic, porcelain, melamine, glass and stainless steel with our stands and risers. We even have flight boards that fit glass bottles and little mugs. Please use the list below to make your own pairings for gorgeous, one-of-a-kind presentations.

CARE AND USE

Melamine Dinnerware, Bowls and Platters

This nearly indestructible line of melamine is long-lasting when cared for properly. It is not recommended for microwave use and should be washed only in the top rack of a high-temperature dishwasher. Not for use with a heat lamp or in the oven. Regarding serving suggestions, we do not recommend any citric, acidic or strong-colored food products that would have direct contact with melamine. These products can cause staining over time. PET liners that can protect melamine from staining are available.

Wrought Iron Griddles

Prior to using your American Metalcraft Griddle for the first time, hand-wash with a mild detergent and warm water. Then dry thoroughly with a soft cloth. Do not put wrought iron griddles in dishwashers or expose them to abrasive sponges, caustic cleaners or acidic detergents.

Bamboo, Wood Peels and Serving Boards

Wood pizza peels and serving boards should never be soaked in water, even for a few minutes. To clean, simply wipe down with a damp cloth and allow to air-dry. They can be seasoned or sealed with oil. To seal, wipe any food-safe oil such as mineral oil on the surface of the peel. We recommend our Wood Oil sold on pg. 356. If sealed properly, the peel is less likely to pick up unwanted odors, food particles and moisture. If a peel warps, leave overnight with the warp facing up and it should flatten out. Avoid leaving peels on hot surfaces. This increases the chance of warping.

Carbon and Black Steel Pans

Seasoning is recommended. To season, wipe interior of pan with flavorless cooking oil and heat empty pan. When surface becomes hot, remove from heat and allow pan to cool. Repeat this process twice. Color of pan will change to a darker finish. This indicates that pan has gained a natural non-stick protection.

To clean, hand-wash in hot water with mild detergent. Dry with paper towel or place in warm oven for a few minutes. Store in dry place. Do not put in dishwasher or expose to abrasive sponges or acidic detergents. Not suitable for microwave.

CAUTION: Flat iron handle is not heat-resistant

Galvanized Pails and Tubs

To clean, hand-wash in warm water with mild detergent and dry quickly. Do not put in dishwasher or expose to abrasive sponges, bristles, caustic cleaners or acidic detergents. Do not refrigerate, soak in water or use with acidic foods.

Hammered Copper and Wrought Iron

As beautiful as these lines are, they require special attention when cleaning. Please hand-wash only with a soft cloth. Do not scour with steel wool or abrasive cleaners.

Securit Signs

To erase Securit Original Chalk Marker messages on Table Boards, Mini Chalkboards, Wall Boards, Sandwich Boards and other Securit signage, wipe with a soapy cloth followed by a clean cloth, or use the Securit Chalkboard Sponge as an easy cleaning alternative.

Cast Iron

Before First Use

Hand-wash and dry immediately. Rub with a thin, light coat of vegetable oil to restore sheen.

After First Use

Wash with hot water (and mild soap if necessary). Dry immediately and rub with a light coat of vegetable oil. To remove excess residue, use boiling water and a plastic scrub bun or brush. Dishwashing, acidic detergents and scouring pads/bristles are not recommended. Re-season the pan when necessary to prevent food from sticking.

Daily Care Notes

Never put cold water in a hot cast iron pan; this can cause the pan to crack or warp. Store in a cool and dry place. Gas flames should not extend up the sides of cast iron cookware. When deep frying, fill cast iron cookware only to ⅓ of capacity.

PIZZA PANS AND TRAYS

To ensure a longer life, always use special care with American Metalcraft Pizza Pans and Trays.

Aluminum Pans and Trays

Aluminum is a soft metal that is attacked by detergents with a high alkaline or acidic nature. Use detergents made specifically for aluminum. Through repeated use, aluminum will soften and, if scoured, will thin. Hand-wash only.

Tin Plate Pans

Tin plate should be seasoned before use and may need periodic re-seasoning. Tin plate will darken with use. Tin plate will also rust if refrigerated, soaked in water or left unseasoned in damp environments. Never soak in water. Wipe dry immediately after hand-washing.

To Season Tin Plate Pans

Wash in warm, soapy water and quickly dry. Brush oil on inside and outside surfaces of the pan and bake to a golden or dark brown. When seasoning, bake at regular times and temperatures. Some pans may need a second or third coating before being fully seasoned.

Hard Coat Pans

These pans are made from heavy-weight aluminum. Hard coat anodizing is a synergistic electro-chemical process that converts the surface of aluminum into aluminum oxide. The aluminum oxide is a dark color. The finish is hard and will not flake off. However, the aluminum underneath is soft and, through repeated use, the pan will soften. If scoured, the pan will thin. Hard coat pans are not non-stick and must be seasoned. Hand-wash only.

To Season Hard Coat Pans

Wash and dry pans thoroughly. Wipe oil on the inside and outside surfaces of the pan and allow it to soak in for 30 minutes. Then, bake at regular cooking times and temperatures. Do not over-bake and do not wash off excess oil. Just wipe clean. The oil residue and any additional oil added before baking makes the pan stick-resistant. Do not put these pans in dishwashers or expose them to caustic cleaning solutions. Hand-wash with detergents made specifically for aluminum.

Pizza Stones

This "all-natural" stone is freezer-, microwave- and oven-safe. It is not dishwasher-safe and requires hand-washing. It requires no seasoning or conditioning. Simply rinse in warm water before first use and allow the stone to dry thoroughly. Most recipes suggest preheating stone 15 to 20 minutes for even cooking and to reduce baking time. To prevent cracking, avoid moving directly between extreme temperatures, such as from the oven to cold water. Do not place stone over an open flame or in a broiler. Do not cut directly on stone. Before cleaning, allow to cool completely. Then remove baked-on foods and rinse in warm water. To avoid soapy aftertaste, do not use soap or detergent. Do not soak the stone or clean in a dishwasher. The pizza stone will darken gradually and retain some staining with use. These are a part of the stone's natural seasoning and will not harm it or affect the taste of the food. Handle the stone with care to prevent chipping or breaking.

TERMS AND CONDITIONS (2019 Catalog Effective 1/1/19)

PRICES All prices in US dollars ($) and subject to change without notice. Because unforeseen rising cost of imported or jobbed items, raw materials or changes in the relationship of the US dollar($) to foreign currencies, pricing of some products may be adjusted at the time of invoicing.

COUNTRY OF ORIGIN USA indicate products made in the United States of America. NAFTA indicates products made in a North American Free Trade Association member country.

LITERATURE Possession of our literature does not constitute an offer to sell.
