THE COLDMASTER SOLUTION:

- High-impact ABS plastic holds up to foodservice use
- Exclusive refrigerant gel ensures high performance
Non-toxic gel receives a cold “charge” when frozen overnight, which enables it to keep your food cold throughout the day
- Extra insulation surrounds refrigerant gel for maximum cold retention
- Refrigerant gel is enclosed in a bag; prevents leaks, even if shell is damaged

• Temperature retention is based on Coldmaster being pre frozen for a minimum of eight hours, then filled directly with pre-chilled foods. Testing was conducted under ambient room temperatures of 24°C

Coldmaster® Whipped Cream & 0.95 Liter Carton Chillers

- Chillers use the same technology as standard Coldmaster pans
- CM1107 is designed to hold a standard 0.95 L carton; keeps dairy/egg cartons cold up to 8 hours**
- CM1108 is designed to hold a whipped cream can and provide food-safe chilling for up to 8 hours**
