

Fresh, **Ground Meat**

Whether you're making traditional hamburgers, or gourmet venison meatballs, you can deliver the freshest ground meat possible with the Chefmate™ by Globe CM12 or CM22 Meat Chopper.

Seamless edges on a stainless steel body make this product both durable and easy to clean and sanitize. Its compact, ergonomic design has a meat chopping capacity of either 250 lbs. per hour (CM12) or 450 lbs. per hour (CM22).

Chefmate choppers are designed for beef, pork or venison. Non-fatty products such as poultry or vegetables will cause damage to the machine.
