

PRO SERIES GRILLS

RCB- 48, 60, 72

RCB- 72

We constructed our RCB Grills specifically for the rental market, so that you can take the party on the road. It's mobile design was created with large scale events in mind. Built with handles on each end and double crash bars to protect the valves and knobs from being damaged during transport and storage, ensuring maximum durability.

Our grill bodies, legs, cooking grates, burners, under shelves, radiants, water pans, fasteners, pilot tubes are all constructed of 304 series stainless steel for durability and ease of cleaning. Compared to units made of metal or 430 stainless steel, our units are built to last.

15,000 BTUH stainless steel burners are placed every 5.75" to ensure the most even heat pattern possible. These units heat up to cooking temperature within 5 minutes. Our stainless steel burners and cooking grills carry a 10 year and lifetime warranty, respectively.

The RCB model is available in liquid propane (LP). All LP models include a two stage regulator(s) and hose(s) and a built-in tank holder(s) that accommodate standard 20 lb. propane tanks. Each model is also available with a single gas connection and 25' quick disconnect hose for use with remote
