# Introducing...

The 2023 Zyliss product collection. Packed full of new ideas and innovations, you'll find our best selling food preparation tools as well as fantastic new kitchen essentials.

At Zyliss we love the aromas, colours, sounds, tastes and textures of the kitchen. The chop chop chop. The sizzle and pop. We love the slicing and grating, the stirring and blending. The orange flash, the lick of blue flame. The hiss when the garlic hits the pan.

It's a feast for the senses and the kitchen is where the action is. We know the magic of food begins long before the meal reaches the table.

So that's why we create brilliant kitchen tools and equipment, designed to help you perfect the art of preparation and cooking. We apply over 70 years of Swiss expertise to everything we make, so they're a delight to use. Our assortment helps you to love the time you spend in the kitchen.

Zyliss products feel great and they look great too. They are a true pleasure to use. Whether you squelch the potatoes, wizzle the salad leaves or jiggle the dressing, preparing ingredients and cooking them comes with a language all of its own.

**zyliss**<sup>®</sup>

Pronounced [tʃi-liss]

The origins of Zyliss take us back to the Swiss town of Lyss, near Bern, Switzerland. Founded in 1951 by trained bicycle mechanic Karl Zysset (1907-1988), inventor of the Garlic Press and Salad Spinner, the brand name is an amalgamation of the founder's surname and the town of Lyss, where the first factory was established.

On the earliest Zyliss products the embossed logo 'Zylyss' is used, but this has evolved over time to suit pronunciation and a growing international audience.

Zyliss applies over 70 years of Swiss expertise to kitchen equipment, using its heritage as the inspiration for creating delicious memories that become tradition, for generations to come.

COLE & MASON  
ENGLAND

2023 COLLECTION

# Helping you to release the flavor of any meal, every day

The origins of our brand date back to 1919 when Cole & Mason was founded as a giftware business in London. The company soon expanded into general home goods and in 1946 we launched our first wooden mill for seasoning. A passion for flavor was ignited: inspiring us to develop made-to-last products to bring out the best in everyday food using the latest technologies and materials. This quest for quality and innovation are at the heart of the Cole & Mason story to this day.

Our aim is to provide you with both the tools and knowledge to bring out maximum flavor and taste when cooking and entertaining. We want to help make every single cooking experience a memorable one so that the feeling of each meal will resonate with you long after enjoying it.

Our products have been thoughtfully designed to be functional as well as beautiful, with carefully selected quality materials that don't just look good - but have integrity too. They are there to enhance your table and kitchen décor, as you get creative with flavors. Whether you're a first-time cook or an experienced chef, whether you have a traditional or contemporary taste in design, you'll find in Cole & Mason an excellent partner to achieve great things in the kitchen.

# About our mill mechanisms

All of our premium pepper mills feature our patented carbon steel Precision+ mechanism, which was developed in conjunction with Nottingham University's Aroma Laboratory. Representing a new level of performance, our Precision+ mechanism is able to deliver more pepper per turn and is scientifically proven to release more flavor than ever before.

All of our premium salt mills feature a unique sharp ceramic mechanism which prevents corrosion over time unlike other salt mills that feature a metal mechanism. Our salt mills are intended for use with dry salt crystals only.

The designs of our mill mechanisms were created in-house by Cole & Mason and are IP protected to ensure no imitations. Furthermore, they are confidently supported by our Lifetime Guarantee.

## About our grind select mills

Our premium range of grind select mills gives the cook complete control with 6 pre-set grind levels for pepper and 3 pre-set grind levels for salt, to provide precise adjustment of the grind from fine to coarse. Select a fine grind for a big punch in sauces or soups or effortlessly switch to a more coarse grind for a more subtle but longer lasting taste, great for salads or steaks.

## Professional grinding performance

Choose from 6 pre-set grind levels for pepper and 3 for salt to give precise adjustment of the grind from fine to coarse.

# | Wooden Mills

Our collection of wooden mills adds a touch of tradition but with a timeless appeal. Whether you prefer a lacquered, stained beech or natural finish, all our wooden mills are made to last and will enhance the interior of both traditional and modern homes.

**AdHoc**<sup>®</sup>

Products made for now

Bernhard Mittelmann,  
CEO

We at AdHoc have been backing exceptional top-quality products since 1995. We follow the classic "Design follows Function" principle and create timeless accessories for all the everyday and special moments in life. Perfect function and modern aesthetics harmoniously come together in our company – a symbiosis that ensures enjoyment right down to the smallest detail.

In the center of domestic life with everything to do with the kitchen and dining table, we stand for good taste and set new milestones with trends and innovations time and time again. Since 1996, our passion has also been in developing unique spice mills, which are characterized by their special function, intelligent design, tasteful aesthetics and top quality.

All the expertise we have accumulated over the years has been invested in the PowerMill pepper or salt crank mill with special Planet+® gear and high-performance CeraCutXL® ceramic grinder. It combines the advantages of all our developments. The PowerMill grinds four times as much as traditional mills. Try it yourself!

Our passion for the perfect taste, for better design, quality and function drives us on and on with renewed enthusiasm and vigor. See for yourself in this catalogue and get a taste of very special moments to come.

Have fun browsing.

Best regards,  
Bernhard Mittelmann  
and the AdHoc team

Cutting instead of grinding:

**PrecisionCut®**

AdHoc's patented original PrecisionCut®:

Small things make the difference! It is the right usage of miscellaneous herbs and spices that turns a dish into a flavorful treat. Apart from the selection of proper aromas it all comes down to their correct treatment.

AdHoc developed the PrecisionCut® to enable the flavors of the different herbs and spices that are used to unfurl in full.

The original AdHoc PrecisionCut® has a special stainless steel blade with sharply etched teeth. They are designed so that dried herbs and spices are cut rather than ground. Their flavors unfold in full when processed, creating a brand new sensation of taste!

AdHoc's original PrecisionCut® cuts dried herbs and spices, for example:

ginger

coriander

mustard seed

Chili

lavender

fennel

and many more

## BENEFITS OF KEN HOM'S WOKS

### KEN HOM WOKS

#### LONG-LASTING ENDURANCE

Hard-wearing coating from Whitford, one of the most trusted in the industry.

#### LIGHTWEIGHT & DURABLE

Heavy-duty gauge aluminum provides durability but is lightweight for active cooking.

#### HIGH TEMP WITH LESS OIL

Carbon steel offers great heat conduction for fast cooking and even heat distribution.

#### FLAT BASE DESIGN

Well-balanced and will not topple over. Safe for use on either gas or electric stovetop.

### OTHER BRANDS

#### SCRATCHES & DISCOLORATION

Other woks may be easily scratched by metal utensils or discolor under high heat.

#### HARDER TO HANDLE

Cast iron woks usually weigh more and are bulky making cooking more tedious.

#### POOR HEAT DISTRIBUTION

Other woks may cook slower and can have uneven temperature changes.

#### FOOD STICKS & HARD TO CLEAN

More oil may be needed to keep food from sticking to the pan.
