Notes & Details

Optimize the space behind your bar by adding refrigerated storage with this Avantco 48" counter height narrow back bar refrigerator! Providing 13 cu. ft. of interior storage space, the unit fits up to (2) 1/2 kegs and houses (4) 17 5/8" x 18 1/8" shelves that each accommodate up to 88 lb. The epoxy-coated steel shelves are perfect for storing and organizing beverages for your bar service, from bottles of ale and beer to cans of crisp ciders. Plus, with a narrow design, the unit fits in spaces other units can't, helping you to maximize the space you have available.

The interior, made of strong 304 type stainless steel, is accessible through two solid doors. For overall durability, the unit's exterior is made with black coated steel and is topped with a type 304 stainless steel surface.

This back bar refrigerator ensures optimal performance by operating with a 3/7 hp refrigeration system that circulates R290 hydrocarbon refrigerant to maintain temperatures from 33 to 40 degrees Fahrenheit. R290 refrigerant has an ozone depletion potential (ODP) of 0 and a global warming potential (GWP) of 3, making it an energy-efficient choice for your business. The foamed-in-place polyurethane insulation helps to trap in the cold air and to prevent the ambient air from entering. This ensures that all food held in the unit remains at food safe temperatures and ready for preparation or direct service to customers! The unit requires a 115V electrical connection for operation and even comes with adjustable feet for simple, convenient leveling.
