

Clean & Sanitize with KLEEN-PAIL® PRO™

Dedicated non-food container for cleaning and sanitation.

Kleen-Pail® Pro™ color-coded pails eliminate confusion between cleaning and sanitizing solution containers. Kleen-Pail Pro's patented, curved shape allows for easy pouring, with molded-in handles for more control. Embossed lettering ensures the pail complies with the health code, and the trilingual design aids in employee training. NSF-approved, the pail is dishwasher safe, easy to clean, and fits into any HACCP plan.
